Dear Valued Customer

Hair and Beauty Service at The Folkestone Academy

I am writing to inform you that, regrettably, the Hair and Beauty Salons have now closed to the public.

Folkestone Academy has seen a significant increase in demand for places over recent years and the closure of Pent Valley School led Folkestone Academy to accept further students into each year group at the start of the academic year 2016-17. This has led to dramatically increased demands on space within the Academy building and we have had to prioritise the needs of the students that we serve.

We have, therefore, had to take the difficult decision to close the Beauty Salon and restrict our Hair provision so that we are able to open more classrooms to educate the students in our care across the core curriculum and wider curriculum.

I would like to take this opportunity to thank you for your custom over the years. I know our students have enjoyed serving you and I hope you have enjoyed making use of these services.

Our friends at East Kent College, nearby on Shorncliffe Road, have state of the art beauty rooms, student-led, and you can continue to help young people learn while working in beauty there.

Yours faithfully

Andrew Milliken
Head of School
